

## Student Spotlight

*Davonte Green - Wareham, MA*

### Automotive

Davonte Green, growing up in a small town in Vermont, came to UCT for a bigger school feel. While growing up Davonte loved working together with his Dad on cars. During exploratory Davonte selected Automotive Technology for his Program. Last year, Davonte's favorite shop projects were preforming an alignment on a Mercedes and a valve cover gasket replacement on a Honda. Davonte is currently enrolled in our Co-op Program at Marty's Buick GMC as a technician.

Davonte is also an avid athlete at UCT. Last week he led the UCT rams over Old Colony rivals with a 3rd quarter domination, in the 67-62 win on the basketball court. He is also a cornerback and tailback for the UCT football team.

Academically, Davonte's favorite class is Math with Mrs. Riberty but Physics is a close second with Mr. Jepson. Upon graduation Davonte is pursuing Aviation Mechanics at Bridgewater State University.
